

National student debt has been clocked at \$1.5 trillion as of 2018, and is expected to increase absent radical steps to address the current debt held by 44 million Americans and improve college affordability for future students and borrowers. This level of student debt represents a growing financial crisis that is shaping up to be the defining electoral issue of our generation.

**1. Student Debt Facts and Figures for California**

- Total student debt owed by all California borrowers (federal and private loans): \$129.6 billion.<sup>1</sup>
- Number of federal student loan borrowers in California (not including private loans): 3.7 million.<sup>2</sup>
- Federal student loan default rate for Californians: 10.5%.<sup>3</sup>
- Average student debt of California 4-year public and private non-profit college graduates: \$22,785.<sup>4</sup> \*
- Proportion of California 4-year public and private non-profit college graduates with debt: 50%.<sup>4</sup> \*\*

\* This debt only reflects graduates from these institutions, and is not inclusive of those who did not complete their degree programs at these institutions. However, this debt amount is inclusive of both federal and private student loans held by these graduates.

\*\* Note that, on average nationally, 83% of graduates from for-profit, 4-year postsecondary institutions left with debt.

**2. Constituent Stories from California**

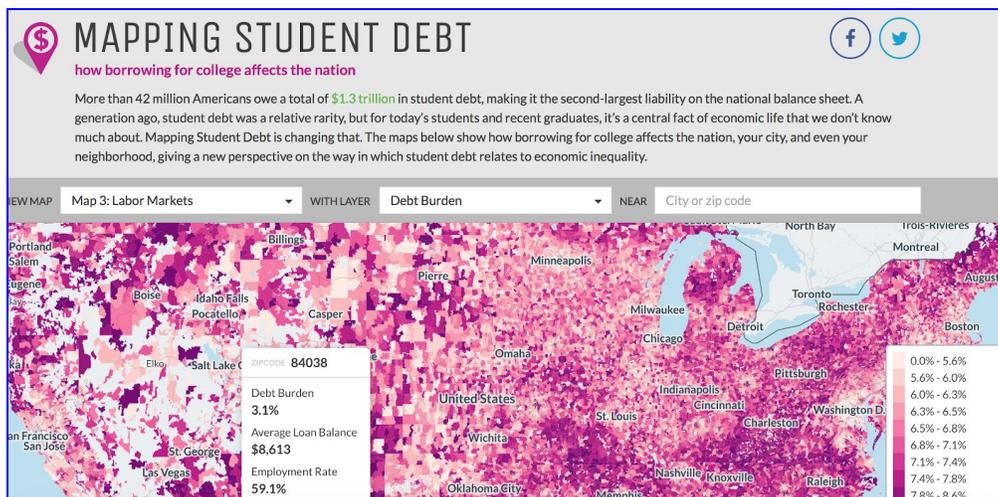

Generation Progress Action and Higher Ed, Not Debt manage a storybank of 70,000 stories from young people and those burdened by student debt. These stories illustrate the nuance of issues faced by borrowers.

**4. State-Level Policy Ideas for Student Debt Policy Reform and College Affordability**

Under the Trump Administration and the deregulation regime being advanced under Education Secretary Betsy DeVos, there isn't much hope that national policy will work to reduce college costs and address the current debt held by borrowers. However, there is such hope at the state and local level.

In January 2016, Generation Progress released a report detailing a suite of policies that states and municipalities — in the face of congressional inaction — could adopt to help relieve people's student debt burden.
